1 Introduction

GiveaLot is a relatively simple idea that is meant to solve the problem that individuals and organisations encounter when it comes to verifying the authenticity of charities and many other different types of organisations. GiveaLot aims to solve this problem by becoming a central point of reference for the verification for charities and other types of organisations.

1.1 Key features of Givealot

- Yearly certificate renewal
- Unique Secure verification certificate
- User friendly and well-designed online system
- Organisation Verification
- Secure Donation to verified organisation

1.2 Who can benefit from Givealot

- The General public looking into an Organisation
- Organisations who want the proof of validation

2 Getting Started

2.1 Home

Firstly when the user visits the Givealot platform they are presented with the home page here they can decide to login if they have already been registered on the system, sign up if they are not registered and or browse if they just want to view the current verified and unverified organisation on the system and lastly the user can choose to search for any organisation if that organisation is registered on the system they will be displayed if they are not a message stating that the organisation was not found will be displayed.

2.2.1 Part 2

After Pressing the Proceed button the user will be directed to the gallery page which requests the user upload any photo's the organisation has for this is not compulsory and can be skipped by the user

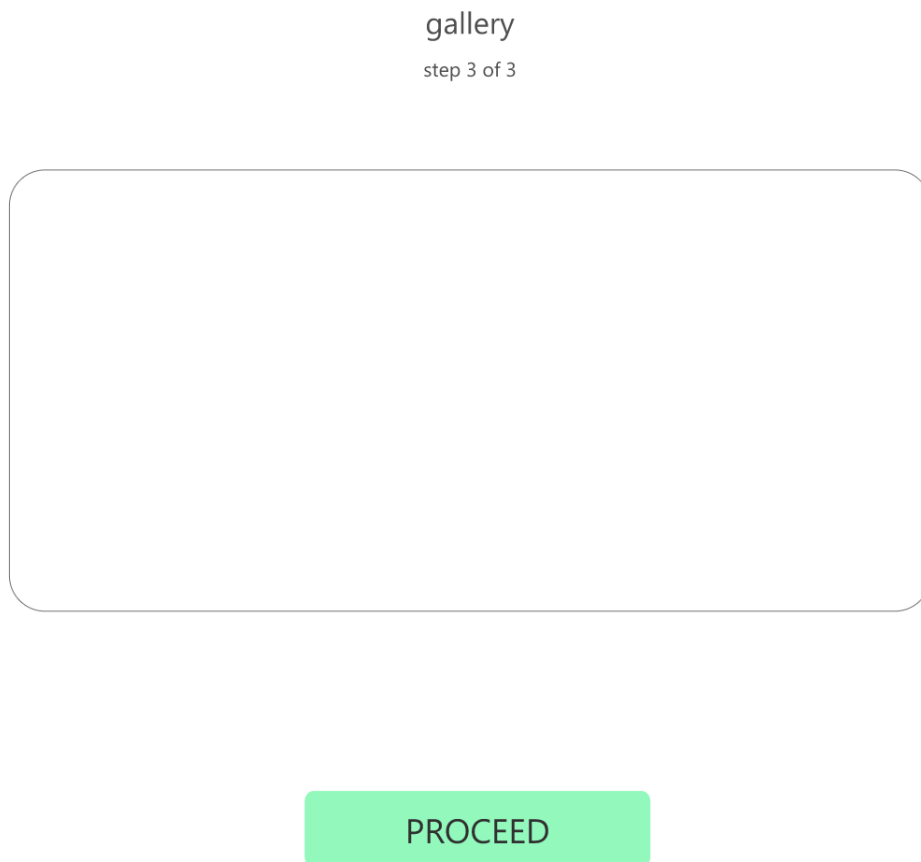

Figure 4: Sign Up Organisation

3 Sign Up general user and admin

If the user is a general user they are taken to the general user and admin sign up pages. There are presented with adding their name, email and choosing the password of their choice. If there exists another user with the same identical email as the current user the user will be presented with an error. If this is not the case then the user will be taken to the home page and has successfully been added to the system and has officially signed up.
